WORK EXPERIENCE

AVATURE 06/2024 - 08/2024
Full Stack Software Engineer - Argentina

- **Tech:** Javascript, PHP, PHPUnit
- Learn Avature's in-house framework and migrate legacy code
- Reduce **end-to-end tests** in favor of **unit and integration tests**
- Fix internal bugs and report cross-team bugs and non-considered edge cases

WORTISE 03/2023 - 02/2024
Backend Developer - Argentina

- **Tech:** Typescript, NextJs, MongoDB, Vercel
- Rebuild the entire product and deploy to production (full cycle)
- Achieve up to **20x performance** in core features translated into massive **new-client retention** and overall better **user experience**
- Implement key features: Web Crawlers, Background data processing, Payments calculations, Database clean up and migration, ABAC

GOBIERNO DE ENTRE RÍOS 01/2023 - 02/2024
Backend Developer (freelance) - Argentina

- **Tech:** PHP, Laravel, OracleDB
- Design and implement a web portal for governmental procedures with an in-house form builder
- **Lead** a team of 3 back-end developers

REPUESTOS YA 11/2021 - 02/2023
Backend Developer - Argentina

- **Tech:** Javascript, Typescript, Express, NestJs, MySQL, MongoDB, Circle CI, AWS (EC2, S3)
- Maintain and develop the backoffice of an E-commerce of spare parts with **automated integrations with providers**
- **Lead** a team of 3 developers
- **Represent the enterprise** in technical meetings with providers

EDUCATION

Mechanical Engineer - Mechatronics
ITBA - Argentina
